

```
const http = require('http');  
const port= "3000"  
  
const server = http.createServer(function(req, res){  
  res.write('Welcome to the Page Server')  
  res.end()  
})  
server.listen(port, function(error)  
{  
  if(error){  
    console.log("There is an Error")  
  }  
  else{  
    console.log("Server is listening on port " + port)  
  }  
})
```
